

The Complete Online Sports Venue Booking Management System for Sports and Pitches

Product sheet

Our comprehensive system is designed to provide everything needed to manage bookings for sports facilities. Simple to run for staff, and easy to use for the public, it covers all aspects of the service and is a total solution - whether you are a squash player looking for a court at a particular time or an organiser seeking pitches for regular football fixtures.

We have developed this system in conjunction with users. It enables those managing sports and pitches, contact centre staff, grounds people and the public to access, and where appropriate deliver, all the relevant services.

The Zipporah system gives you

- **Effective multi-site accessibility for all users**

- Our system has a unique complete back office management facility, enabling different users to gain multiple access to diaries, thus providing maximum efficiency

- **Real time visibility**

- Bookings are faster and more efficient because contact centre staff have real time access to the same information as service departments and public users

- **Automatic VAT information**

- Our system has built-in intelligence covering all relevant rules, including complex VAT payments and waivers, resulting in worry-free accounting management

- **Variable charging levels**

- Our sophisticated yet easy-to-use in-built charging and costs functionality enables users to identify variations in charging levels, eg. for members and non-members, peak and off-peak
- Management of subscription and offset payment plans is included

- **League and other third party bookings**

- Our system caters for reservations by leagues and other trusted third parties and is simple to use for staff, customers and priority bookers

- **Easy integration with existing systems**

- Our state-of-the-art technology allows easy, seamless integration with existing council software, including payment and financial systems

- **Comprehensive reporting**

- Our system includes a fully integrated, automated suite of reports, providing you with all the statistical information you need to report on bookings

- **Quick and easy installation**

- The system can be introduced in stages, allowing you to maintain control
- There is no disruption to service because no software rollout is needed

Our system will streamline and enhance the way in which you run your sports facilities and pitches, thus improving the service you offer the public. This solution gives councils an easy-to-use, ready-to-go bookings' management service designed to improve efficiency.
